Canva

Research skills :
User Persona
User Journey
User Scenario
User Flow Diagram
Usecase Diagram
Activity Diagram

Software Engineering :
Class Diagram
Software Process
(Waterfall , Kanban)

Hello, my name is Wansirimanee. I like talking to people.

I love to cook. I enjoy eating Thai food and Japanese food.

Traveling around the world is my passion.

*One of my dreams is to go on a trip to find inspiration
and eat a lot of food from that place.*

When I was a kid I have so many dreams but growing up dimmed the light of my dream.

Not too long ago I found myself liking designing applications and websites

Talking with people to collect the requirements for an application has become my passion.

*Once I study Human-Computer Interaction class in my university,
it became even clearer that I want to be UX/UI designer.*
